- Highly skilled in Adobe and Microsoft programs
- Exceptional project management skills
- Excellent organizational and communication talents
- Proven ability to work cooperatively in a team environment

About Me

For the past 15 years, I've been an editor and project manager at a technology company in Washington state. As a student, a designer, an editor, and a project manager, I have excellent proofreading, editing, writing, and communication skills. I am reliable, hardworking, and driven and pick up new things easily. When I set a goal, I achieve it. In my free time, I enjoy attending music concerts and musicals and spending time with my family; my Chihuahua, Macy; and my grandpuppy, Bentley.
